

ELEVATE CHILD EDUCATIONAL TRUST

PUJILADU, COLONYPADA

BUILDING BRIGHTER FUTURES THROUGH FREE & QUALITY EDUCATION

REGD NO. 1132502142

About us

Elevate Child School is a non-profit educational initiative committed to providing free and quality education to underprivileged children. Currently, we are educating 180+ students, ranging from LKG to Class 5, without any financial burden on their families.

Our journey began in 2022 with just 2 dedicated teachers and 10 students, driven by a strong vision to improve the standard and accessibility of education in our community. Since then, we have continuously worked towards enhancing the quality of learning, creating a supportive environment, and empowering children with the knowledge and skills needed for a brighter future.

Why Kalahandi?

Our vision is to provide quality education in regions where access to learning is limited or unavailable. During the initial phase of our journey, we carefully evaluated different areas to understand where our efforts could create the greatest impact. Through this process, our focus turned to Kalahandi district in Odisha.

Kalahandi is widely recognized as one of the most socio-economically backward and vulnerable districts in India, historically affected by poverty, malnutrition, and limited access to essential services. Located in the eastern part of the country, the district has a significant tribal population, contributing nearly 29% of its total population.

Due to its remote and interior location, many communities across different blocks of the district still lack access to basic amenities, including quality education and healthcare. These disparities make it challenging for children to receive the opportunities they deserve for a better future. Understanding these ground realities, we made a conscious decision to establish our initiative in Kalahandi.

Our aim is to reach the unreached, empower children through education, and contribute towards the long-term development of tribal and underserved communities by providing them with quality learning opportunities and a pathway to a better life.

Our Mission

Our mission is to provide free, accessible, and high-quality education to children from underprivileged and underserved communities, especially in regions where educational resources are limited.

We aim to create a supportive and inclusive learning environment that focuses not only on academic excellence but also on the overall development of every child. Through dedicated teaching, value-based education, and continuous improvement in learning methods, we strive to empower students with the knowledge, confidence, and skills needed to build a better future. We are also committed to ensuring that no child is deprived of education due to distance or lack of transportation. To address this, we provide school van facilities, so that students do not have to walk long distances (3–4 km) every day. This helps save time, ensures regular attendance and helps children focus better on their studies.

Our goal is to remove both financial and physical barriers to education, ensuring that every child gets the opportunity to learn in a safe, comfortable, and encouraging environment.

Our Vision

Our vision is to build a society where every child, regardless of their background, has equal access to quality education and opportunities.

We aspire to transform underserved regions like Kalahandi by uplifting communities through education, enabling children to break the cycle of poverty and lead independent, dignified lives. In the long term, we envision expanding our efforts to reach more such areas, becoming a model initiative for grassroots educational development, and contributing towards a more educated, empowered, and equitable India.

Our Facilities

At Elevate Child School, we are committed to creating a well-equipped and supportive learning environment that promotes both academic excellence and overall development of students. Our key facilities include:

- **Classrooms:** We have 13 well-maintained classrooms designed to provide a comfortable and focused learning environment.
- **Teaching Staff:** A team of 9 dedicated teachers ensuring quality education and individual attention to students.
- **Digital Learning Resources:** 4 **computers** and 4 **laptops**
- 3 **projectors** to support interactive and modern teaching methods

- **Library:** A well-stocked library with 250+ books, including encyclopedias, maps, general knowledge, mathematics practice books, grammar books, and more to encourage reading and self-learning.
- Science & Mathematics Lab (Under Development):
- We are in the process of establishing a fully equipped Science and Mathematics laboratory, which will be operational within the next few weeks, as all necessary materials have already been procured.

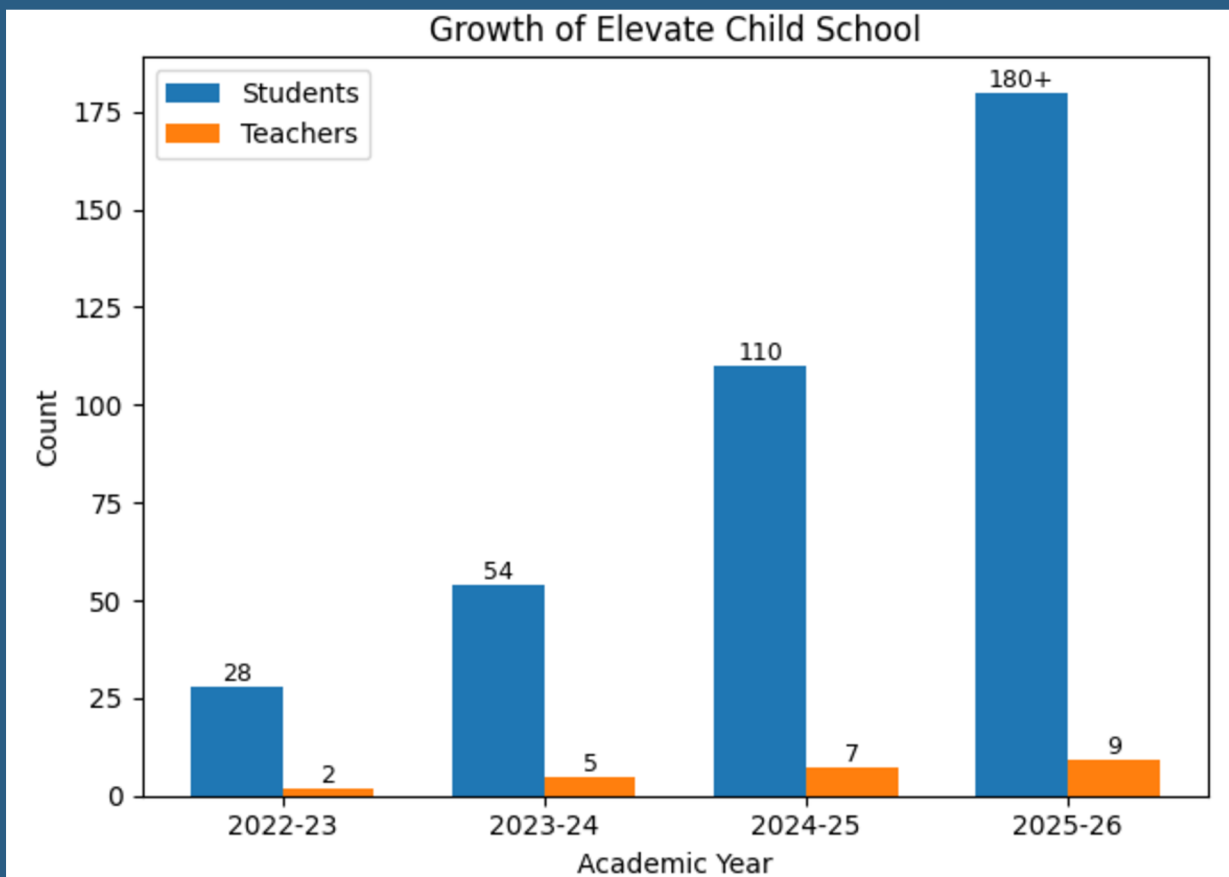

Transportation Facility:

- We provide 2 school vehicles operated by 2 experienced drivers, ensuring safe, reliable, and timely transportation for students.

Safety Measures:

- Installation of CCTV cameras (3 units) to ensure a safe and secure environment for students.
- Drinking Water: Access to clean and safe drinking water through a proper filtration system.
- Support Staff: 1 peon to assist in maintaining school operations and cleanliness.
- Playgrounds: Availability of 4 large playgrounds to support physical activities, sports, and overall fitness of students.

Our Impact

Since our establishment in 2022, Elevate Child School has grown from a small initiative with just 10 students and 2 teachers into a thriving learning center serving 180+ students today. This journey reflects not just growth in numbers, but a deep and meaningful impact on the lives of children and their families.

- We are providing completely free education to 180+ students from LKG to Class 5, ensuring that financial limitations do not stop any child from learning.
- Many of our students are first-generation learners, meaning they are the first in their families to receive formal education. This is creating a long-term transformation in their households and communities.
- With the help of our school vehicles, students no longer need to walk long distances (3–4 km). This has significantly improved attendance, punctuality, and overall learning outcomes.
- In a region where access to good education is limited, we are delivering structured, quality learning supported by trained teachers and modern teaching tools.
- Along with academics, students are actively involved in reading, sports, and co-curricular activities, helping in their physical, mental, and social development.
- With proper facilities, dedicated staff, and safety measures like CCTV, we are providing a secure and nurturing space where children can learn with confidence.

Future Plans

At Elevate Child School, we are continuously striving to expand our reach and improve the quality of education for every child. Our future plans are focused on strengthening infrastructure, increasing accessibility, and enhancing learning outcomes.

- We aim to develop a dedicated school building to provide a more structured, safe, and sustainable learning environment.
- To reach more children from nearby villages, we plan to purchase an additional school vehicle, ensuring that no child is left behind due to distance or lack of transport.
- We intend to provide proper benches and desks for all students to ensure a comfortable and effective learning environment.
- We plan to repair and improve the school grounds to promote sports, physical activities, and overall development of students.
- As the number of students continues to grow, we aim to recruit more dedicated and qualified teachers to maintain a high standard of education and ensure individual attention for every child.
